He came to Hopkinsville eight or ten years ago and has been a consistent party man. He is a red-hot Goebel man, a Mason, a Knight of Pythias and a member of the Christian church. He has a strong following and will make a hustling contest for the nomination, which is equivalent to an election. If elected he will make a good councilman.

### Nick Dicken a Benedict.

### Tail Holt on Both Tickets.

## FOUR SHOTS FIRED

And Two of Them Took Effect—One Serious Wound.

A shooting bee took place near Bainbridge Sunday in which two men were wounded, one of them seriously. Major Gaither, Henry Gaines and Lewis Irving, all colored, met on the highway and a row resulted. Gaither drew his pistol and fired at Irving, the ball entering the back of his neck. It

is claimed that he then fired three shots at Gaines. The latter was hit in the mouth, the ball coming out just back of his ear. He is not thought to be dangerously wounded, but Irving's wound is more serious and may result fatally.

A warrant was sworn out yesterday for Gaither's arrest and an officer went out to the neighborhood in which the shooting occurred, but had not returned at a late hour in the afternoon.

## TEACHERS ROBBED.

Harry McChesney Unearths a Republican Seal, in His Paper.

The school fund per capita last year was \$2.30; this year it is \$2.70. We have been asked for an explanation of this. It is very simple and easily explained. The state auditor's report, as to the source from which this year's fund is derived, show that \$265,242.09 is "balance from last year." There were last year in round numbers 700,000 pupil children in the state. Dividing the \$265,242.09 by 700,000, we have a quotient of about 37 cents. This 37 cents, due every child in the state last year, should have been paid last year, and the per capita should have been \$2.67 instead of \$2.30. Why was it held back? Simply to raise the per capita this year because a campaign is on. In other words, the Republican administration stole \$265,242.09 from the teachers of last year and are paying it to the teachers of this year in the hope of gaining votes. If every teacher in the state were to teach the same school this year he taught last, he would get his money a year after it was due him—but they do not all succeed themselves, and about fifteen per cent. of those who taught last year do not teach at all this year; this class has been robbed outright.

It had become so accustomed to Republican thefts that we thought nothing they might do could surprise us, but we must confess that the audacity of this steal takes our breath away; it is about the coolest piece of robbery ever perpetrated in the commonwealth. The 119 counties of the state were each robbed of \$2,228 on an average. The little county of Livingston was "held up" to the tune of \$1,406, or each district on an average was defrauded of a little more than \$24.

Another remarkable feature of the case is that, after holding the fund back last year and for three years previous, and dumping it all into this year's fund, they still fall short fifteen cents of what the per capita was when they took charge four years ago. It was then \$2.85. It only takes a little figuring just here to show that with the per capita up to \$2.70 this year there is still the neat little sum of \$1,400,000 unaccounted for in the four years on the basis of a per capita of \$2.85, which the Democratic administration paid its last year.

We are at loss to know how a decent Republican can vote for the Bill Taylor gang again with facts like these staring him in the face.—Smithland Banner.

## Questions Plainly Answered.

H. R. Coleman, of No. 1419 West Chestnut street, Louisville, Ky., recently sent a letter to Rev. R. L. West, one of our oldest and best Methodist ministers, and a life-long and untiring Democrat. Mr. Coleman's explanation of his purpose in sending the letter was as follows:

"As the excitement over the State involves a great moral question, and as favoring the man is an endorsement of his methods as well as himself, my object is to ascertain how each minister of the different denominations stands on present political issues."

The questions below were by Mr. Coleman and the answers by Rev. West.

1st. For whom are you for Gov. or for?

Answer: For William Goebel against the world, the flesh and the devil.

2nd. What are your views on the political situation in our State?

Ans. That if we don't get the State out of the hands of anti-Goebelists we are ruined.

3rd. What seems to be the preference within the scope of your knowledge?

Ans. All for Goebel.

4th. Do you favor the repeal of the Goebel law?

Ans. No.

5th. Are you in favor of an honest ballot and a fair count?

Ans. Yes.

the Goebel law was intended to or calculated to secure either?

Ans. I do.

5th. Will you accept some literature, and pass same to the hands of others, etc.?

Ans. I will not, and if sent will refuse to take it out of the postoffice.

At this point, having frankly answered all of Coleman's questions, Rev. West puts this question to his interlocutor:

"Are you not a Republican or gold bug, and are you not paid to do this dirty work—you a preacher?"—Clinton Democrat.

## STOLE A STEER.

One of the Thieves Said to be a Hopkinsville Darkey.

Will Browder, charged with the theft of a steer last Friday, waived examination before Judge Harris this morning and was held for the grand jury. His alleged accomplices, Phineas Washington and Clint Ball, took continuances until Saturday and will take a preliminary trial. They are represented by M. A. Ruggles. When the last two named prisoners were first arrested they said they were tramp bootblacks from Louisville and that Browder had taken them up in the middle of the night to go with him on the stealing expedition. Now it is found that they have never been in Louisville, that one of them is from Hopkinsville, and that Browder says that they, and not he, put up the job. It is believed that the testimony has to give will implicate them more completely than their first declarations indicated.—Henderson Journal.

## ENRAGED BEYOND MEASURE.

To Think They Cannot Buy or Steal Kentucky Next Year.

Louisville, Ky., Aug. 23.—Republican leaders of the State are planning a fight to test the Goebel election law in the Supreme Court of the United States. If the law is still in force in the fall of 1900 Republican leaders say a way can be devised in the Congressional election to get the law in the Supreme Court of the United States for a hearing. These plans have been guarded as a party secret.

## FIVE FEET LONG

Is the Hair Of This Ohio County Girl.

Beaver Dam, Ky., Aug. 21.—Miss Bertha Ambrose, daughter of Mr. J. M. Ambrose, of near Beda, this county, is the proud possessor of raven black hair which drags on the ground, and she is five feet four inches tall. At this season of the year she finds her luxuriant tresses quite uncomfortable. Miss Ambrose is seventeen years of age, pretty and attractive.

## Saved by His Dog.

Cynthiana, Ky., August 22.—Mr. Albert Phillips can credit a dog with having saved his life. While he was escorting some ladies across a field a vicious bull attacked him, knocking him down against a stone fence and butting and pawing him. The animal had recently been dehorned, else Mr. Phillips would have been killed.

He had several ribs broken and was badly bruised. A small dog attacked the bull, catching the animal by the hind leg and thus diverting its attention long enough for Mr. Phillips to escape with his life. His condition is serious.

## Married Only a Few Hours.

Guthrie, Okla., Aug. 23.—A short honeymoon was spent here. P. V. Jobe, of Pawnee, and Miss Mabel Payton, of Warfield, were married on the morning. In the afternoon it was noticed that the groom was under the influence of liquor, and when he retired to his room he sat down and fell asleep. The bride made no attempt to arouse him.

### FOR COUNCILMAN.

We are authorized to announce Joe E. Fowright, as a candidate for the office of City Councilman from the Seventh ward, subject to the action of the Democratic party.

Charlie Lewis has apologized to Dr. Kerfoot, but Dr. Kerfoot has not yet apologized to Mr. Goebel.

Ex-Congressman Bill Owens, who was a Democrat prior to 1896, will speak at Owensboro September 2 in support of the bolters.

The followers of the John Brown of 1859 were reburied at Elba, N.Y., yesterday. The followers of the John Brown of 1899 will be buried Nov. 7.

Joe R. McLean has more than enough instructed votes to nominate and his nomination for Governor of Ohio will be made on the first ballot at to-day's convention.

More than thirty Democratic orators were on the stump for Goebel yesterday, Mr. Goebel himself speaking at Bowling Green. Col. W. R. Howell, of this city, spoke at Edmonton, Metcalfe county.

The Louisville Dispatch is beginning the public to circulate petitions asking Brown to get off, although his campaign is only two weeks old. The same paper wants Goebel to get off, but Goebel knew the Dispatch was against him when he got on and it made no change in his business.

O'Neal and Davis, two Louisville bolters, are to be replaced by Democrats on the Jefferson county election board and the Post is already mooting about their "removal." As a matter of fact their terms expire next month and as they are supporting a platform denouncing the election law they have no right to expect to be retained on a commission whose duty is to properly enforce the law. No law, however good, can be safely committed into the hands of its enemies. Kick them out without ceremony.

The Brown speaking at Bowling Green drew a crowd of 500 or 600 people, according to the estimates of the Times and Courier-Journal, though the Post put the crowd at 800. Of these, 400 were excursionists from other counties, out for a good time at somebody else's expense. The ex-Governor has cooled off considerably since his Lexington effort and was not running with a hot tox. He admitted that he told Charlie McChord he would accept the nomination of the Louisville convention, but said he assured him that the nomination must be independent of the disputed delegations. A good portion of his speech was an attack on Joe Blackburn, the nominee for Senator.

### TAYLOR'S FIGURES ON CHRISTIAN COUNTY.

In his speech at London, Attorney General Taylor attempted to reply to Senator Goebel's charges that there were Republican frauds and violations of the election laws in the mountains and in Christian county in 1896. In discussing this county he said:

"As to Christian county, the record shows that in 1896 the republican ticket received 3,637 votes, the democratic ticket received 2,515; in 1896, the republican ticket received 4,525, the democratic ticket 3,145; a Republican gain of 24 per cent, and Democratic gain of 30 per cent. These figures refute the libelous indictment against the people of Christian county."

The facts in Christian county cannot be disposed of by this little problem in "percentage."

The KENTUCKIAN pointed out at the time and re-iterates now that the election boards of 1896 were packed against Bryan wherever it could be done. Of the 112 election officers, only 46 were Democrats, and many of those were of doubtful standing or submissive characters. The Democrats had only 22 judges in 28 precincts. Five gold men against Bryan and one Populist were judges in 6 other districts, with a straight Republican in every district. This left Bryan without a judge in five of the largest precincts in the county, counting the Populist a Bryan man.

Of the 28 clerks, 19 were Democrats, some very weak-kneed ones, six were Republicans, three gold men for McKinley and one a Populist for Bryan. This gave McKinley the clerks in nine precincts.

Of the 28 Sheriffs, the Republicans had 23 and the Democrats five, and of that few were not strict party men.

The officers were so divided that the Democrats were absolutely without a voice in passing upon doubtful votes.

Now for the figures. In the 1896 vote when Bradley carried the county by more than 1200 plural, the total vote was about 6600. The Democrats had about 2,500 and the Populists 200. In 1896 these forces were united and the Bryan total vote was increased from 2,700 to 3,145, a very natural and easily explained increase.

How about the Republicans? Bradley's vote of 3,600 in 1895 was swelled in 1896 to 5,000, an increase of nearly 1,000 votes. The total vote in the county was 7,800, or from 500 to 700 more than there were voters on the assessor's books and more than 1,000 more than were ever before cast in the county.

The increase was almost entirely in the negro precincts, where strange negroes were voted in gangs, all taught to give in the same story that they had been in the dearest sense the fust week in September."

Many of these negroes have never been seen here since.

They were floaters dumped into this county from other counties and from over the Tennessee line and permitted to vote over the violent protests of the challengers and other representatives of the Democratic party powerless to prevent these frauds.

These facts are so well known in this county that they cannot be truthfully denied.

In 1897 the county election was at stake and the division of officers was still worse. Only 40 Democrats out of 112 officers were appointed that year and many of them were floaters of at least a part of the Democratic ticket. In one of the city precincts every voter voted against the council ticket, and in other precincts it was almost as bad.

But that year the floaters were not here in such large numbers and Bailey only carried the county by 600 or 700 and a part of the county Republican ticket narrowly escaped defeat. The Democrats started to bring contests in two races, but the canvassing board, composed of three Republicans, refused to let the contestants be represented even by an attorney at the official canvass, which was in "executive session." The Democrats to this good day do not know how many if any doubtful ballots were returned, or how they

were disposed of. To the credit of one member of the canvassing board, who was himself a candidate for re-election to a county office, it must be said that he consented to let an attorney be present at the count, but the other two refused and went into "executive session." It is not charged that frauds were committed by this board, but their ruling was partisan and unfair. Having no way of finding out what irregularities were reported by the election officers, the contestants were forced to abandon the proposed contests and quietly submit.

Last year for the first time in years the election in Christian county was fairly held. The officers were appointed according to law, and no man of any party has been found to charge that there was any partisan unfairness.

In that election the Republican majority was only 550.

### A PREACHER'S REASONS.

"Yes, I favor Goebel," writes the Rev. Wm. Stanley, a well known Central Kentucky minister.

"First, because we need a brave, calm and wise man in the present turbulent condition of the party, and rebellious attitude of lawless citizens.

"Second, because he is the author of a measure or law that alone could secure to Democracy its rightful supremacy that had been wrested from it by Republican fraud.

"Third, because he is a temperate man, able, consistent and ever loyal to party and principles.

"Fourth, I am enthusiastically for him chiefly because he is the unadmitted friend and knightly champion of humanity betrayed, plundered, profaned and disdained. Because he is tongue-tongued with censure of the world's blind greed, and dares to denounce and defy the power and perfidy of corporations and trusts. Because he is the friend of the oppressed. Because he is too true and too brave ever to be placed in a position to meekly and sneakingly smile when the services of true Democracy and Republicans are praised."

Mr. August Belmont, of New York, has written a letter to Senator Goebel, taking him to task for some of his statements about the L. & N. and explaining the position of the road of which he is a heavy stockholder in the present campaign. The following is an extract from his letter:

"The corporation, under the management of Milton H. Smith, as President, and the other officers of the company, including the Board of Directors and myself," has no other duty in view than that of conducting the L. & N. railroad as a business enterprise and we can only thank the public for the use of the territories which it serves and promoting the welfare of those who use it as a means of transportation. If, in order to gain adherents to your political ambition in the State, you endeavor to create a prejudice of the people against the L. & N. railroad, and try to excite the jealousy and legitimate distrust of the public in the L. & N. railroad, is driven to take the best means within the law and its right to meet such attacks, and this is now doing by bringing before the public the arguments which are at its command to counteract the evil influences of your unjustifiable hostility."

Many of these negroes have never been seen here since.

They were floaters dumped into this county from other counties and from over the Tennessee line and permitted to vote over the violent protests of the challengers and other representatives of the Democratic party, saying a vote for Brown was half a vote for Taylor and those who did not want to vote for Taylor could help in the same direction by voting for Brown. His speech was a political battle that is worrying Republicans and Brownies alike. It opened the eyes of some hesitating Democrats who are now strong Goebel men.

September is the month for fishing and outdoor sports, and is the beginning of the hunting season in Canada and Maine. Scribner's for September has a number of articles with an outdoor flavor to them. It opens with an account by Frederic Land of what he calls "the finest canoeing country in the world." He made a five hundred mile journey from Mattawa to the head waters of the Ottawa and Gatineau rivers, through a region abounding in fish and moose. It has been for centuries and is now the home of the Algonquin Indian. The region through which Mr. Land travelled with Algonquins for guides is the best sportman's haunt left in America. Much of the wilderness is as yet uncharted. The illustrations are made from the author's abundant photographs. He will be remembered as the author of two former articles in Scribner's, one on New Brunswick and the other on the Mingan Seigniory.

The September issue of The Ladies' Home Journal is an unusually attractive number. On the first page is given a series of pictures of "The Wayside Inn of Sudbury Town," made famous by Longfellow. Barton Cheyney contributes an instructive article on "The Young Man and the Professions," telling young men how to take up the study of law, medicine, architecture, etc.

J. G. Bailey, for clerk of the Court of appeals in 1897, has been recommended by Senator Deboe for a clerkship in the Census Bureau in Louisville. Barton Cheyney will take an examination at Cincinnati next month, and if successful in attaining the required average will be appointed.

## White Wyandottes.

The White Wyandotte is a good-sized blocky bird, especially well furnished with meat in the breast—just where it is required for table purposes. In addition to this the yellow skin and white pen feathers make them a fine market fowl. Being a small-boned fowl, their weight is in the meat, as compared with fowls of heavier frame. For broilers and roasters they lead, as they are hardy, chicks grow fast, and they stand forcing well. In this particular they gain a point on the Plymouth Rocks, which are very liable to leg weakness during forcing.

We find with our birds that until the chicks weigh about a pound or a pound and a half, they grow very few feathers, their gain being in their plump bodies. Chicks that grow in this manner are harder and grow faster than those that exhaust their strength by feathering out early. The pullets mature early not frequently laying at five months. They are the best layers of their class of fowls, thus gaining another point on their nearest competitors, the Plymouth Rocks.

By the time the fowls reach the laying age they should be carefully selected for next years breeders, culling out all birds with single combs, feathered legs, etc., with the same care that a fancier would use, for when you are through breeding next season you can get a fair price for them from fanciers, especially those who are beginning and want good stock at a low price. The culs, both males and females should be fattened for the next two weeks, then sent to market. If, as should be the case, you have nothing but good, pure stock, you can realize a good return by selling your surplus males as breeders, if you do not charge too great a price. We have found that there is a good demand for White Wyandotte breeding males at about a dollar and a half or two dollars.

We do not advise breeding Wyandottes much over standard weight. So far as our experience goes, matings in which the birds were much over weight have not given general satisfaction. A point of considerable advantage to breeders of limited room is the fact that the Wyandottes stand confinement well.

We believe that our experience enables us to assert the White Wyandottes to be the best all-round fowl.—Reliable Poultry Journal.

## How He Knew The Score.

A couple of Topeka poultrymen were going out on the street car the other evening, and were talking chickens at a good lively rate. A stranger sitting across the aisle, who they claimed was a preacher, became much interested in their conversation, and the three got to talking. In fact, even the motororner, who was also a chicken crank, was keeping his weather eye turned towards them.

The stranger said he had some mighty good birds—had one Plymouth Rock cock that scored 97 points. Our friends became quite interested in their new found acquaintance, and asked him where he got such a good bird. "Oh, just picked him up," said he, "I got him for a dollar."

"Ninety-seven points is a pretty good score for a White Rock, isn't it?" queried the poultrymen. "Who scored your bird, and where was he scored?"

"Don't know," replied the preacher.

"How do you know, then, that he scores so high?" was asked.

"How do I know? why, that is the number on his leg band."

And the car nearly ran away,

the motororner took such a fit.—Poultry West.

## How to Clip the Wings.

There is a right and a wrong way to clip the wings of a fowl. Mr. T. S. McGillivray, in farming, expressed his views of the subject as follows:

"We hope to be pardoned for saying that, if there is a marked stupidity among the fraternity, it is the usual way we find fanciers clipping birds' wings, including poultry. This stupidity is not confined to the novice alone, but we find it in old poultry fanciers. The old instruction solemnly spoken was, 'Clip only one wing, so that the bird cannot balance. If you clip the two it will not fly.' This advice has gone from mouth to ear for generations given by wise acre whose information is all founded on antiquated hearsay, and who never investigate for themselves. The average fancier clips the wing while it is closed. In this way one cannot help not only disfiguring the bird, but the heavy warm feathers which grow on the half of the wing next to the body, and which nature intends more as a coverlet to keep the bird warm than to assist in flight, are removed. Right under this warm coverlet of feathers is the lung, and when this part of the wing has been removed, there is nothing to protect the lung, and it may be noticed that there is almost a bare spot so far as body feathers are concerned. The sleek and wet falling on the unprotected lung causes pneumonia, which is followed by a lingering death or a delicate bird."

"Experience and experiments prove that birds after a little practice fly higher and farther with only one wing clipped than with two. When only one is clipped they are apt to injure themselves by going with great force against the weakened side.

## HOW TO CLIP.

"Extend the wing fully. Then cut each pinion feather between the shaft and quill from the middle of the wing to the top. Do the same with the other wing, and all is right. The bird cannot fly; he is not disfigured (in fact when walking round you could not tell that the wings were clipped); and his lungs are still protected by nature's coverlets."

## HOW TO PINION.

"It is generally recommended to pinion pheasants at two months old. We have performed the little operation at all ages, and never had one die from the effect.

"The operation requires no skill. It means to take a pair of scissors and clip the wings at the first joint. The birds never seem to mind it, and in less than a week it is all healed over. This, of course, would not do for birds that were intended to be let loose in a game preserve, as they can never fly again. But for breeding stock, to be fenced in fields, it is much better than running the risk of watching and clipping their wings when necessary."

## Hen Would Adopt Kittens.

An Auburn lady tells of a curious incident that came to her notice recently. A sitting hen stole away her nest, but after a day or two the nest was discovered, and the eggs were taken away. Soon after a cat had three little kittens found the nest and took it as a home for her young ones.

The old hen had remained on the nest part of the time, and near it all the time, and when she saw the kittens there she seemed to regard them as her progeny. At any rate she adopted them straightway, and didn't propose to let the cat have anything more to do with them. She would hover them in the nest, and cluck to them with the greatest complacency. The cat didn't want to give up her children, and the hen and the cat had a pitched battle.

The result was a division of the spoils. The cat ran away with one of the kittens, while the hen remained in possession of the two others. A member of the family discovered the hen's theft, however, and restored the kittens to their real mother. The old hen made such a time about it that she had to be fastened up in a coop.—Kennebec.

## TO CONSUMPTIVES.

"More haste, less speed," hasten slowly, are proverbs born of experience that something can't be hurried without loss and waste. That is equally true of eating. "A fast meal is a fast life," "A meal of refreshments," is a habit most disastrous to the health. You may hurry your eating. You can't hurry your digestion, and the neglect to allow proper time for this important function is the beginning of sorrows to many a busy man. When the tongue is loud, the head buzzing, the heart throb, the blood rising, undue fullness after eating, hot flushes, irritability, nervousness, irresolution, cold extremities, and other annoying symptoms, be sure the stomach and organs of digestion and nutrition have "broken down." Nothing will re-establish them in active healthy operation so quickly as Dr. Pierce's Golden Medical Remedy. It strengthens the stomach, nourishes the nerves, purifies the blood, and builds up the body. It is a strictly temperance medicine containing no alcohol or other intoxicant.

Given away. Dr. Pierce's great work, The People's Common Sense Medical adviser is sent free on receipt of stamps to pay expense of mailing only. Send 25c postage stamps for the paper covered book, or 31c stamps for cloth binding, to Dr. R. V. Pierce, Buffalo N. Y.

## DIGEST YOUR FOOD.

Most, if not all, of the sickness is caused by food that is not digested. These poisons go into your blood and then you are liable to almost any disease the human system can inflict. Use Dr. Christoffel's German Liver Powder and watch the results. You will feel the difference in a few days. Give it a trial and be convinced. Price 25c.

HERE is a medical lecture in a nutshell. The Kidneys drain water and impurities from the blood. The Liver makes bile and helps to drive off other waste. If these organs work badly the body becomes a cesspool and disease sets in. You must get them into healthy action or die.

### THIRD ANNUAL FAIR.

#### Louisville and Jefferson County Fair Association (Colored) —Poultry Display.

The display was a very creditable one for the season of the year. Quite a number of the members of the State Association had promised to make exhibits, but found they could not well do so owing to the condition of their birds on account of the mounting season.

One feature of the fair was the promptness with which they paid the cash premiums, orders being made out as soon as the judging was completed, and promptly cashed when called for. If the colored people can get together another year, and have but one association and fair, I believe they can have a fine poultry display.

Mr. Frank R. Wright, of Veedale, Ky., Vice President of the State Association, did the judging, the premiums being awarded by comparison as follows—poultry on trios; ducks and geese on pairs:

Barred Plymouth Rocks—First, Frank G. Hogan, O'Bannon, Ky.

Single Comb White Leghorns—First, Geo. J. Kestler, Louisville; second, Paul Wagner, Louisville.

Single Comb White Leghorns—First, Henry Dupke, Louisville; second, Frank G. Hogan, O'Bannon, Ky.

Buff Leghorns—First, Alford Resch, Louisville.

Blue Andalusians—First, N. W. Proctor, Louisville.

Silver Spangled Hamburgs—First, Paul Wagner, Louisville. Buff Cochinchina Bantams—First, N. W. Proctor, Louisville.

Black Cochinchina Bantams—First, Paul Wagner, Louisville.

White Crested White Polish Bantams—First, Paul Wagner, Louisville.

White Pekin Ducks—First, Frank G. Hogan, O'Bannon, Ky.

White Embden Geese—First, Frank G. Hogan, O'Bannon, Ky.

Homer Pigeons—First, Chas. A. Hess, Louisville, on blue cock bred from Atlantic, which flew from ship six hundred miles out in the ocean to shore in Belgium; second, C. B. Obermeyer, Louisville, on bird bred from Kruger strain; third, S. J. Schreck, Louisville, on blue checker cock with 330 mile record when 5½ months old.

French Lop-Eared Rabbits (imported)—First, Henry Brinke, Louisville.—N. W. P. in F. H. Journal.

### Good Blood Pays.

Hens are quoted at 7½ cts. per pound at this time. The difference in the value of a dozen common hens weighing about forty-five pounds and a dozen thoroughbreds weighing 65 pounds is \$1.50. The cost of raising is no more and if anything, the difference is in favor of the thoroughbreds. The difference in the value of a single dozen will pay for a setting of eggs from which the second year, one hundred to one hundred and fifty chicks could be raised. Who can honestly say there is no more money in pure breeds than in common.

### STILL HELPING TAYLOR.

#### Bradley Secures Another Appointment Over Taylor's Protest.

Frankfort, Ky., Aug. 21.—The appointment of Noel Gaines to a Captaincy in the army is a turnaround of Minister W. Godfrey Hunter, Senator Deboe and Attorney General Taylor.

Hunter left his diplomatic post in Guatemala last fall and is said to have come all the way to Washington to register a kick against Capt. Gaines, who was the chief witness against him in the Senatorial bribery indictments, and Deboe and Taylor also filed letters protesting against his appointment. Secretary Root's order to Gov. Bradley, however, took the appointments out of politics and placed them at the State Capital over the appointment.

Nebraska Democrats, Populists and Silver Republicans met in Omaha and fused on nominations for Judge of the Supreme Court and two members of the Board of Regents of the State University. Former Gov. S. A. Holcombe was nominated for Supreme Justice by the Populists and endorsed by the other two conventions. Col. W. J. Bryan was a delegate to the Democratic convention.

In April 1860 the Democratic party met in Charleston and split into two factions, over war issues. Both factions adjourned to meet in Baltimore, where on June 18 the abolitionist faction nominated Stephen A. Douglas and on June 28 the slavery faction nominated Jno. C. Breckinridge. In the election Douglas got 12 electoral votes and Breckinridge 72. John Young Brown supported Douglas.

No one will deny that Goebel is stronger to-day than he was thirty days ago. In the face of the most vindictive abuse from the character assassins hired to defame him, he has kept his temper, refrained from dealing in the same kind of mud-slinging and has day by day grown stronger with the people. It will not take the public all summer to see that not one of the charges against Goebel has been proven.

The Paducah News has the Brownie ticket at the head of its editorial columns, followed by the name of J. F. Dempsey, the Democratic nominee for Railroad Commissioner. As the law does not allow a man to run on two tickets, it is now in order for Judge Dempsey to demand that the News quit advertising him as a part of the Goebel ticket.

Our noisy friend Bill Jones, of Princeton, who had Frank Pasteur nominated by the Brownie convention, is so averse to riding on the I. C. C. chair cars that he paid his fare to this city and traveled fifty miles out of his way in order to catch one of the L. & N.'s double-decker coaches for a night trip to Lexington, by the way of Bowling Green.

The American Policy—We should not only give the Filipino independence, but also protection. We should protect him from his enemies. We should establish a government and then tell him it is his, and then we should tell all the world, "Hands off!" That would be a declaration of American principles.—William J. Bryan.

They still remember the closed back episode out in Arkansas. The Fort Smith Herald says:

"At the convention of Democrats held this week in Kentucky, who protest against the recent nomination of Goebel as Governor, one of the conspiring men in the plot was Col. W. C. P. Brattitude. There is no mention of Madeline Pollard being a spectator.

There is such a thing as overdoing the courting business. A Delaware girl, Miss Annie Gott, had her head turned by Harry Anderson's love talk and at the last moment stopped the wedding, declaring that she was "too young and pretty to be married." Anderson, who lives in Colorado, went back home alone. He never got Miss Gott.

Somehow the saloons at warren place manage to do a good business.

Tap, tap all day at the machine until the head throbs with every tap. And when the machine stops for the day the throbs continue.

More than any other class of women the large number of women in clerical work closely watch the health of the organs peculiarly womanly. For the general health will be disturbed just in proportion as the woman's organs are diseased. When irregularities there will come pains in the head, the back or side, nausea and general misery. The happiness of the future of the wife and mother may be entirely ruined by neglect of the health at this critical period.

Women confined in offices, shut from necessary exercise, will find a failure to find a place in the office or prescription. It so regulates the womanly functions and so strengthens the delicate organs that pain from these causes will be banished, distance away and with future health will be perfectly assured.

There is no opium, cocaine or other narcotic in  
Favore's Prescrip-  
tion. Neither does it  
contain alcohol,  
whisky or other intoxicant.

"I was so weak I did not know what to do. I was in my room, writes Miss Roberta Miller of New York, a patient of Dr. J. C. Mendenhall. "My periods were cured too often and the hemorrhage would not stop. I also had spells which the doctor said were fainting fits. I could not tell when they were coming on, so I took to bed. Dr. Mendenhall would clamp until I could not straighten. This strength from one monthly period to another was very great. I was nervous all the time. I was advised by a kind friend to take Dr. Pierces' Favorite Prescription, which I did and before I had taken in all six bottles of it Dr. Pierces' feelings were so good, he never had a return of this trouble since, and never knew they saved my life.
